

In the department of computer science at the Technische Universität Darmstadt there are two positions available in the research group 'Security in Information Technology' (Prof. Dr. Waidner) as

Research Assistants (all genders) in the field of cybersecurity

The contract is initially limited to 3 years. The position is classified according to pay group 13 of the TU Darmstadt collective agreement (TV-TU Darmstadt).

The Technische Universität Darmstadt is at the forefront of research in cybersecurity and privacy. The vacancies will be filled within the context of the National Research Center for Applied Cybersecurity, in which the Technische Universität Darmstadt, the Goethe-Universität Frankfurt, Hochschule Darmstadt, Fraunhofer SIT and Fraunhofer IGD are cooperating very closely. ATHENE is the largest research center for cybersecurity in Europe and is considered one of the top 5 in this field worldwide. Further information on ATHENE can be found at → <https://www.athene-center.de> Within ATHENE, the vacancies are assigned to a project on the topic of "Malware Detection", but collaboration in other projects of the research group is possible and expressly desired.

Your profile:

- A very good University degree in Science (M.Sc. or Diploma) in computer science or a related field
- Practical experience and solid knowledge in cybersecurity
- High self-motivation, dedication, and independent work
- Willingness to work in an international and excellence-oriented work environment
- Fluent German and English skills desirable. But we also offer our support in acquiring the respective language skills, if necessary, e. g. through intensive language classes.

We offer:

- A creative environment in a demanding and highly relevant research area
- Excellent technical equipment and a wide range of opportunities to present your research results at international conferences
- Opportunity to cooperate with excellent scientists at home and abroad in a large joint project
- Comprehensive scientific support, including the planning and creation of your publications and, if applicable, your dissertation
- Contribution to our academic teaching program
- Possibility of mobile working, use of the "Hesse State Ticket" (public transport) according to the terms of the collective agreement

The research group works closely with other ATHENE contributors. For the specific project, close cooperation is expected in particular with the research groups of Prof. Haya Schulmann, Goethe-Universität Frankfurt, Prof. Reiner Hähnle, Technische Universität Darmstadt, and Fraunhofer SIT. The work in ATHENE and the cooperation with Fraunhofer enable unique, direct access to the requirements and problems of industry and society.

Opportunity for further qualification (doctoral dissertation) is given. The fulfillment of the duties likewise enables the scientific qualifications of the candidate.

Technical University of Darmstadt intends to increase the number of female employees and encourages female candidates to apply. In case of equal qualifications applicants with a degree of disability of at least 50 or equal will be given preference. Part-time employment is generally possible.

Please send applications with cover letter, curriculum vitae, copies of certificates and diplomas or master's degrees and, if available, a list of publications and copies of two publications electronically in a PDF document (<10 MB) stating the code no. to jobs@sit.tu-darmstadt.de.

For further information please contact beate.mueller-wenzel@sit.tu-darmstadt.de

By submitting your application, you agree that your data may be stored and processed for the purpose of filling the vacancy. You can find our → [privacy policy](#) on our webpage.
